BookNook
grow together

BUILDING STRONG PARTNERSHIPS THAT FORGE PATHWAYS TO STUDENT SUCCESS USING

Small-Group Intervention + High-Impact Virtual Tutoring

MATH + READING INTERVENTION

What We Offer

BookNook combines high-quality virtual tutors with research-based instruction to improve K–8 student achievement through synchronous, high-dosage tutoring. Designed by educators and tech innovators, our solution focuses on strengthening essential reading and math skills.

BASED ON RESEARCH

Our program supports students' progress towards mastery using best practices grounded in research.

DATA-DRIVEN

Our platform tracks performance and monitors engagement.

SYNCHRONOUS

Students connect remotely with a consistent tutor 1:1 or in small groups for live sessions.

iT WORKS

ESSA Level 1 validation for trusted results.

2,000+

vetted tutors are ready to support student success before, during, and after school.

SERVING K–8 STUDENTS

BOOKNOOK IS COMMITTED TO EQUIPPING SCHOOLS WITH OUR NETWORK OF

Dedicated + Supported Tutors

The strength of our high-impact tutoring model comes from evidence-based interventions facilitated by diverse and caring tutors. Each of our tutors go through an extensive screening process.

CONSISTENCY + COMMITMENT

BookNook tutors sign up for the entire implementation cycle, not single appointments. Our tutors are carefully screened, vetted, and certified prior to their first session with students.

SUPPORT + DEVELOPMENT

All tutors go through BookNook Tutor Certification and many participate in ongoing professional development.

81% have classroom teaching experience

89% have online teaching experience

89% hold a bachelor's degree or higher

WHAT RESEARCH SAYS WORKS

ESSA Tier I
Strong evidence of efficacy validated through a randomized controlled trial (RCT)

Proven Student Growth
90% meet or exceed growth goals

Accelerated Gains in Weeks, Not Years
100L+ Lexile growth in 6–8 weeks

Closing the Gap for Struggling Learners
38% fewer students behind 3+ grade levels

Stronger Results Than Other Programs
Faster proficiency gains than peers
